

## STATIONERS' CROWN WOODS ACADEMY

### **Welcome to Delamere**

Delamere School is a vibrant and exciting community, underpinned by a love of learning and a culture of success. All achievements are celebrated and every failure is seen as an opportunity to learn. We believe that every child is entitled to a first-rate education and, through outstanding teaching and an innovative curriculum, have fostered a stimulating and challenging learning environment, both inside and outside of the classroom. As a small school of 480 students, we know each and every individual and their needs. We are meticulous in our scrutiny of students' progress and attainment, acting promptly to provide support and challenge so that our students achieve their very best. We are relentless in our pursuit of excellence and expect the very highest standards in all aspects of school life.

At the heart of our school is the notion of family. We are an inclusive and caring community; each member of the Delamere family is treated with respect; every member is valued; every member feels safe. We value our pastoral responsibility and are committed to ensuring that every child is nurtured to be their best: academically, socially, morally, culturally and spiritually.

I am incredibly proud to be the Head of Delamere School and am inspired every day by our students' grit, determination and perseverance through life's challenges. Our students are inheriting a world, different and more challenging, than ever before and I am committed to ensuring that our students leave us with the skills and strength to aspire, strive and thrive.

Katrina Long  
Head of Delamere School
