

Chemistry	M1	M2	M3	M4	M5	M6
Topic Title	Physical chemistry and transition elements	Physical chemistry and transition elements	Organic chemistry and analysis	Organic chemistry and analysis	Revision & exam preparation	
Brief summary of content studied	Rates, equilibrium and pH Development of practical skills	Acids, bases and buffer Energy Development of practical skills	Transition metals Aromatic compounds, carbonyls and acids Development of practical skills	Nitrogen compounds, polymers and synthesis Analysis Development of practical skills
