

Middle Years Programme (MYP): Assessment, Recording and Reporting Policy

(2022-23) Philosophy

Secondary academies within Leigh Academies Trust align their educational beliefs and values to reflect the IB Middle Years Programme philosophy. This is to develop enquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect. The MYP curriculum consists of eight subject groups. The MYP also places great emphasis on international-mindedness, service and community as demonstrated in the infographic below.

A rigorous assessment framework underpins the MYP methodology which is authorised by the IB Organisation using the MYP Assessment Standards. The Academy must adhere to the standards. Assessments identify what the student knows, understands, can do, applies and reflects upon at different stages of the learning process.

IB MYP Assessment Standards

Standard B1.5c: The school has developed and implements an assessment policy that is consistent with IB expectations.

Standard C4.1: Assessment at the school aligns with the requirements of the programme.

Standard C4.1a: The school uses the prescribed assessment criteria for each subject group in each year of the programme.

Standard C4.2: The school communicates its assessment philosophy, policy, and procedures to the school community.

Standard C4.3: The school uses a range of strategies and tools to assess student learning.

Standard C4.5: The school has systems for recording student progress aligned with the assessment philosophy of the programme.

Standard C4.6: The school has systems for reporting student progress aligned with the assessment philosophy of the programme.

Standard C4.7: The school analyses assessment data to inform teaching and learning.

Standard C4.8: The school provides opportunities for students to participate in, and reflect on, the assessment of their work.

MYP Assessment Criteria

The MYP assessment process is a **criterion-related model**. The strengths of this model are:

- students know before even attempting the work what needs to be done to reach each level
- it helps teachers to clarify and express their expectations about assignments in a way that students can understand
- students are assessed for what they can do, rather than being ranked against each other
- students receive feedback on their performance based on the criteria level descriptors

Each of the eight subject groups is divided into four assessment criterion (A/B/C/D) as set out in the table below, as well as interdisciplinary learning (three assessment criterion) which is a key feature of the programme.

	Criterion A	Criterion B	Criterion C	Criterion D
Language and Literature	Analysing	Organising	Producing Text	Using Language
Language Acquisition	Listening	Reading	Speaking	Writing
Individuals and Societies	Knowing and understanding	Investigating	Communicating	Thinking critically
Arts	Knowing and understanding	Developing skills	Thinking creatively	Responding
Design	Inquiring and analysing	Developing ideas	Creating the solution	Evaluating
Mathematics	Knowing and understanding	Investigating patterns	Communicating	Applying mathematics in real-life contexts
Sciences	Knowing and understanding	Inquiring and designing	Processing and evaluating	Reflecting on the impacts of science
Physical and Health Education	Knowing and understanding	Planning for performance	Applying and performing	Reflecting and improving performance
Interdisciplinary	Evaluating	Synthesizing	Reflecting	N/A
Community Project (Year 9 only, once per academic year)	Investigating	Planning	Taking action	Reflecting

Terminology

MYP Achievement level - the level associated with criterion A, B, C, D as featured in MYP subject guides. Each criterion can be awarded between 1-8 achievement levels spread across four bands.

MYP Grade - using the achievement levels from the four assessment criteria, the holistic grade is determined as a number (out of 32) from which a grade from 1-7 is derived, with 7 being the highest.

Converting MYP Achievement Levels into an MYP Grade

In each MYP subject group, learning objectives correspond to assessment criteria. Each criterion has eight possible achievement levels (1-8). Teachers must gather sufficient evidence from a range of assessment tasks to

enable them to make a professional and informed judgement guided by the criteria to determine a student's achievement level according to how well the student has demonstrated mastery of the published criteria.

Teachers adopt a 'best-fit' model when using the achievement level descriptors. If a student demonstrates that they have achieved characteristics from a given band the student will be awarded an achievement level that reflects the evidence they have collected.

Achievement levels for the four criteria are added together creating a total number out of 32. Using the MYP rubric, the total sum equates to a holistic grade from 1-7 as featured below. Only data from summative assessments can be used to report the MYP grade.

Sum of Assessed Criteria MYP Grade	Description
28-32 7	Produces high-quality, frequently innovative work. Communicates comprehensive, nuanced understanding of concepts and contexts. Consistently demonstrates sophisticated critical and creative thinking. Frequently transfers knowledge and skills with independence and expertise in a variety of complex classroom and real-world situations.
24-27 6	Produces high-quality, occasionally innovative work. Communicates extensive understanding of concepts and contexts. Demonstrates critical and creative thinking, frequently with sophistication. Uses knowledge and skills in familiar and unfamiliar classroom and real-world situations, often with independence.
19-23 5	Produces generally high-quality work. Communicates secure understanding of concepts and contexts. Demonstrates critical and creative thinking, sometimes with sophistication. Uses knowledge and skills in familiar classroom and real-world situations, and, with support, some unfamiliar real-world situations
15-18 4	Produces good quality work. Communicates basic understanding of most concepts and contexts with few misunderstandings and minor gaps. Often demonstrates basic critical and creative thinking. Uses knowledge and skills with some flexibility in familiar classroom situations, but requires support in unfamiliar situations.
10-14 3	Produces work of an acceptable quality. Communicates basic understanding of many concepts and contexts, with occasionally significant misunderstandings or gaps. Begins to demonstrate some basic critical and creative thinking. Is often inflexible in the use of knowledge and skills, requiring support even in familiar classroom situations.
6-9 2	Produces work of limited quality. Expresses misunderstandings or significant gaps in understanding for many concepts and contexts. Infrequently demonstrates critical or creative thinking. Generally inflexible in the use of knowledge and skills, infrequently applying knowledge and skills.
1-5 1	Produces work of very limited quality. Conveys many significant misunderstandings or lacks understanding of most concepts and skills. Very rarely demonstrates critical or creative thinking. Very inflexible, rarely using knowledge or skills.

IB and Trust MYP Assessment Expectations

Teachers will use the **year 1 MYP rubric** in years 7 and 8 and the **year 3 MYP rubric** in year 9.

Every subject will have an **assessment** that takes place twice per academic year in modules two and six. This will be based on an agreed set of parameters determined by the Trust MYP Subject Groups in accordance with MYP principles to ensure cross-Trust assessment data stands up to comparison.

Collaboration, standardisation and moderation will be a feature of the CPD programmes at the academy to ensure fair and robust assessment takes place. Moreover, cross-Trust moderation will also take place for common assessments, so that overall grades collected by the Trust are consistent.

All assessment criteria will be assessed resulting in a 1-7 holistic grade, which will be reported to the Trust. Data from the common assessments will be collated by the Trust Data Manager for analysis and the results shared with the intention of driving up standards and sharing good practice.

There is an expectation that students will aim to achieve their target grade in year 7 and year 8. Age-related content will ensure the level of work is more challenging in year 8 than year 7 and thus progress will be demonstrated. Additionally, the targets in year 9 are further challenging and the criterion is much more advanced.

Trust MYP Target Grades

This table represents the **lowest target grade** that can be applied in all academies and forms the basis upon which the relative performance of academies will be assessed by the Trust from the two assessments in modules two and six.

Ability range	Baseline Band MYP Grade (4 Criteria /32)	Target MYP Grade (KS3)
Low	88 and below 1-9	2
Low plus	89-95 10-14	3
Middle	96-101 15-18	4
Middle plus	102-106 19-23	5
High	107 -110 24-27	6
High plus	111-114 28-30	7

Exceptional 115+ 31-32 7+

A student entering the academy with a baseline test score of 100 is aiming to achieve an MYP grade of a 4 throughout key stage 3. The third column in the table is intended to assist with the identification of the most able students within each ability band. Exceptional students may be distinguished by the almost perfect marks achieved in their MYP assessments.

Reporting Cycle

Students will receive a progress report **at least** twice per academic year to provide stakeholders with a clear understanding of how well students are achieving in each MYP subject group.

The report will feature an MYP target grade and an interim grade when reported. A final end of year grade must be reported in module six for each subject group in accordance with IB expectations.

Student reflection features throughout the academic year in all subjects to ensure students evaluate and take ownership of their own learning.

Communication about academic progress will predominantly take place via:

- Progress Reports
- Parent/carer evenings
- Bespoke parental communication with academic and/or pastoral teams

For more information please refer to: MYP Subject Guides, MYP From Principles into Practice, and the IB Programme Resource Centre.

Report Example

Grade Summary

		Target	MYP Grade	Attitude to Learning
Language and literature	English	6	5	EX
Mathematics	Mathematics	6	5	EX
Sciences	Science	6	4	EX
Individuals and Societies	Humanities	6	4	EX
Language Acquisition	Spanish	1/6	1/4	EX
Arts	Art	6	4	GD
	Drama	6	5	EX
	Music	6	4	EX
Design	ICT	6	4	EX
	Technology	6	6	EX
Physical and Health Education	PE	6	4	GD

LANGUAGE ACQUISITION

Language Acquisition works in Phases and not year 1, year 2 etc. A student works through Phase 1 and then moves to Phase 2 when they are ready and not at the end of a school year. On the reports you receive for Language Acquisition there will be two numbers. The first is the PHASE and the second is the LEVEL they have achieved in that phase.

In the table below a student has a 1/5, meaning PHASE 1, LEVEL 5. A student working at PHASE 2, LEVEL 5 would be encoded as 2/5

Sciences	5
Language Acquisition	1/5

Attitude to Learning:-

EX – Excellent GD – Good RI – Requires Improvement CN - Concern

Target

Students are set targets based on their baseline tests scores. These range from 1-7 with 7 being the highest.

Criteria

Students are awarded an achievement level from 1-8 for each of the four assessment criteria with 8 being the highest. Students and parents can use this information to identify areas for improvement in consultation with teachers.

MYP Grade

This ranges from 1-7 with 7 being the highest. This will be an interim or a final MYP grade. The table on page three gives more detailed information.

Attitude to Learning

- **Excellent (EX):** a student who applies themselves consistently to all tasks both in school and at home regardless of outcome. The student frequently exceeds expectations and demonstrates their own initiative.
- **Good (GD):** a student who applies themselves well in the majority of classes and home learning tasks, completing them to the best of their ability.
- **Requires improvement (RI):** a student who could work well and complete tasks to the expected standard but greater consistency in effort, concentration and organisation is required.
- **Concern (CN):** a student who does not show sufficient commitment in this subject which has an impact on their own learning and possibly that of their peers. They may give up easily, and lack the discipline to complete all tasks. An improvement in effort is required.
